

UNIVERSITY WILL BE PACKED AGAIN

First Day's Arrivals Even Surpass Those of First Day Last Session.

CHARLOTTESVILLE, VA., September 10.—Registration of students for the eighth session of the University of Virginia began this morning, and the number of names entered exceeds that of the first day of the last session, which is the largest year of the university's attendance. The promise is for a very full session. The academic department will, in all probability, show its largest enrollment in the total, and the largest of Virginia students. The law department will unquestionably exceed a matriculation of last year, when high-water mark was reached in that school.

Tells of Europe. President Alderman reached here last night to be present at the opening. He has just returned from a three months' sojourn in Europe. Speaking this morning of his summer vacation, he said: "I have had an exceedingly interesting visit to Europe. I spent most of the time in the British Isles and a considerable portion at the English universities, Oxford and Cambridge, and the English public schools, Rugby and Eton. I had the pleasure of dining with the Virginia Rhodes scholars, Messrs. Tucker and James, and of coming to the University of Virginia. I was especially distinguished in English, and I was a fellow at Magdalen."

President Alderman stated that the problems at Oxford were much the same as those here, the chief problem being one of adjustment to the needs of the twentieth century in education. At Cambridge, especially, it was interesting to note the advances in the physical sciences, especially in physics. In politics the two questions interesting him were the licensing bill, which is another name for the prohibition movement, and the old-age pension law, which is another name for the old-age pension law.

Dr. Alderman was in London at the opening of the Olympic games and on the day of the Marathon race. His general opinion about the dissatisfaction with the British officials is that no injustice was intended, but the management was somewhat antiquated, and should not have been intrusted to one nation alone.

President Alderman will attend the inauguration of President Garfield, of Williams College, on October 5th, on which occasion he will receive the degree of doctor of laws from that institution.

Hamden-Sidney. [Special to The Times-Dispatch.] HAMDEN-SIDNEY COLLEGE, September 10.—When Hamden-Sidney College opened yesterday afternoon with an address by the Rev. D. H. Holston, of Petersburg, it entered upon the 133d year of its existence. Mr. Holston took as his theme, "Extravagance," treating it most happily, first in the matter of "deeds," secondly in "money," third in "strength," and fourth in "time." A very large gathering was present to hear him.

Acting President W. H. Whiting presided. The following provisional arrangements for the present session have been made: Prof. Whiting will be acting president. Prof. J. H. C. Winston, of the chair of chemistry, will relieve Prof. Whiting of the duties of professor of chemistry and Rev. H. Tucker Graham will undertake the chair of Bible studies. This plan has been decided on for this session, during which time the committee will continue its work looking to the securing of a suitable man for president. The session starts off most encouragingly, and the new students are keeping up the high standard of personnel for which the college has long been noted.

Football Manager H. Bishop has his schedule completed, and it will be published within the next few days. The coach will arrive on the 14th and take charge of the football squad. Some very good material is to be found among the new men.

Randolph-Macon. [Special to The Times-Dispatch.] RANDOLPH-MACON COLLEGE, September 10.—The opening exercises of the seventy-seventh session of Randolph-Macon College were held this morning in the college chapel. A large attendance greeted the speakers, Rev. Dr. B. E. Lipscomb, chairman of the executive committee of the college, and President R. E. Blackwell.

Dr. Lipscomb in his address of welcome spoke of the vast opportunities which lay before the college man of today.

Governor Claude P. Swanson, who was to have delivered the opening address, was detained at the last moment by several important committee meetings. This, of course, was a disappointment to students and citizens.

Among the prominent visitors present for the occasion of the opening were Dr. James Cannon, Jr., of Blacksburg; Dr. D. T. Davidson, of Richmond; and Dr. L. P. Phaup, of Southampton county.

The outlook is very encouraging indeed, there being a 10 per cent. increase over the number of matriculation in the same time last year. All signs point to a long step

SIR KNIGHT WM. H. MANEELEY

82d Degree of Mary Commandery, Philadelphia, Recovers from Bright's Disease.

During convalescence week in San Francisco, Sir Knight Wm. H. Maneeley, of 1804 N. Seventeenth Street, Philadelphia, of Mary Commandery called at the office of Dr. J. J. Fulton Co. to report his recovery.

He stated that he had both Bright's Disease and Diabetes for nine years, and had gotten so low he could not speak for a half hour at a time, and had to be put in ice packs. A leading physician sent him word that he had had several cases recover under a preparation made in California called Fulton's Compound. Maneeley sent for it. The third night he got the first natural sleep in months, and improvement was then gradual but continuous, until he is now the picture of health.

Among other well-known Philadelphia physicians who had recovered he mentioned Richard P. E. Snow, of 1815 Columbia Avenue; also, two residents of Kensington, whom he also met, and several others. Maneeley will know how to approach Mr. Maneeley to get the eternal truth as to the genuineness of this profound discovery.

We again announce to the world the curability of Bright's Disease, Diabetes in fully 87 per cent. of all cases. We are now the picture of health. Weakness or loss of weight; puffy ankles, hands or eyelids; dropsy; kidney trouble after the third month; urine may show sediment; falling vision; drowsiness; one or more of these.

POOR SEASON FOR FISH

Oystermen Have Been Forced to Work During Summer Months.

[Special to The Times-Dispatch.] NORFOLK, VA., September 10.—All fishermen admit that this season has been the poorest for fishing in their remembrance. Scores of oystermen and other fishermen over the summer months fishing for the market have been forced to look elsewhere for the means of a livelihood.

Various reasons have been given for the dearth of fish. Many declare that the many pounds and fish steamers plying the coast have depleted the stock, and that it is up to the State Solons to protect the industry or soon see it a thing of the past. Others declare that weather conditions and the prevalence of unfavorable winds account for the conditions.

Oyster Prospects. Local oystermen are looking forward to a good season this winter. It is believed that the stock will be about the average and profitable. The opinion is based on the excellent condition of oys-

ter farms, the rapid, early development of young bivalves, and the frequent rains of this and last month. It is pointed out that an abundance of fresh water lay in the growing season is beneficial to oysters.

There is great activity among the oyster packers and oyster dealers in preparation for the opening of the season next Tuesday.

RAID OYSTER BEDS

200 Marylanders and Virginians Defy Sinepuxent Bay Authorities.

[Special to The Times-Dispatch.] BALTIMORE, MD., September 10.—State troops, if necessary, are to be employed to enforce the oyster laws of Maryland. Governor Crothers has already ordered out a steamer in the oyster fleet, under command of Commodore Howard, to go to Sinepuxent Bay and enforce that law and order is enforced there.

Dispatches to the executive offices are to the effect that a raid of 200 oystermen, many of them from Virginia, is being made upon the beds at this point, and that the force of raiders has defied the local authorities.

Governor Crothers is exceedingly angry, and declares, at all cost, he will see to it that the laws of Maryland are enforced. The militia may be ordered out.

UNVEILING IS POSTPONED.

Failure of Petersburg Granite Company Is the Cause.

[Special to The Times-Dispatch.] CHARLOTTESVILLE, VA., September 10.—The people of the city and county were keenly disappointed to-day to learn that the unveiling of the monument to be erected to the memory of Charlottesville and Albemarle soldiers who were killed during the Civil War, would not be ready for unveiling in October during the twenty-first annual meeting in this city of the Grand Camp of Confederate Veterans of Virginia. Captain Micajah Woods, commander of the John Bowie-Stranger Camp, C. V., and chairman of the monument committee, was shocked when he received notice that the Petersburg Granite Company, which had the contract for the monument, had made an assignment, thus none of the granite material had been quarried, and that the Petersburg Granite Company, the only concern engaged in quarrying what is known as the "Petersburg granite," ceased operations more than a month ago.

The committee in charge now finds it necessary to commence negotiations at once.

[Special to The Times-Dispatch.] NORFOLK, VA., September 10.—In the Circuit Court of Princess Anne county to-day James C. In the recent election there was a tie between Tait and Groves, each securing eighteen votes. The judges drew lots, and Tait was the choice. Later the county commissioners drew lots, and Groves was the choice. Both received certificates. The question is, which drawing was legal? As the vote is equal, the Council, this legislative body is tied up until the matter is settled. Judge B. D. White has set Monday for a hearing of the case.

Mr. Bass was born in Petersburg in November, 1826, and was a descendant of the Princess Pocahontas. For a great many years he had devoted himself to the free private instruction of poor boys, teaching them at his home at night. He leaves the heritage of an honest man, stainless character and a pure life. Though exempt from military service by reason of his position as a teacher, he always responded to the call for the militia forces for the defense of the city. It was on one of these occasions that he was captured, and during his imprisonment he had two sons, to whom he was devoted.
